

61329 **FR** Hi-Vis Coverall

Internal chest pocket for a radio with external opening so mic attaches to radio loop at the shoulder.

DESCRIPTION

This deluxe, high-visibility coverall fits great and features ten pockets and non-sparking YKK® zips throughout. The sleeves are designed with pre-bent elbows for a more contoured fit and ease of movement. 100% brass press studs are covered on the inside so nothing but soft, protective material comes in contact with your skin. Major seams are triple-stitched and stress points are bar-tacked for strength. Reflective striping is strategically placed for increased visibility and safety.
